

Our approach to Diversity & Inclusion

INTRODUCTION

People, markets, customers, business and the community are constantly changing. To achieve our business objectives, we need a workforce that is aligned with this ever changing environment. Ageas¹ values the difference each individual brings and regards these differences as an asset. Therefore we encourage our people to think and act differently, to be themselves and to contribute their individual skills. Ageas strives to create a truly inclusive Ageas community, a community of mutual understanding that respects and values differences.

This policy demonstrates Ageas's commitment and approach to valuing every individual that works for us. We see this as a business imperative, in that it provides us with the foundation to enable us to achieve sustainable business results. Diverse people, diverse teams and diverse management will make us stronger.
