Belgium Net result

ageas.

Strong net result contribution in life & non-life

Net Result

In EUR mio

• Life: Strong result with capital gains, mainly on Real Estate, more than compensating for lower investment income

 Non-Life: Strong result supported by excellent performance in Motor and Household

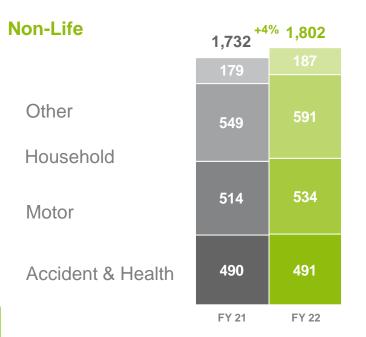

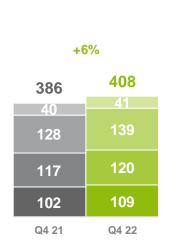

Belgium Inflows

ageas.

Strong Non-Life growth in a mature market

- Unit-linked down 2% YTD on lower volumes in Life Retail (both in Bank & Broker channel) mitigated by better performance in Group Life (+7% vs LY)
- Guaranteed down 4% on lower volumes in Savings products

- Solid growth in most product lines
- Increase in **Household** supported by underlying portfolio growth and tariff changes (a.o. adjusted for the ABEX index)
- Increase in Motor mainly driven by growth in Motor Own Damage
- Increase in Other mainly driven by Legal assistance

Belgium Combined ratio Excellent operating performance

^{*}Adjusted for additional Q4 claims costs related to the July weather events and reserve adjustments in P&C

- FY 22 Non-life performance includes impact from adverse weather (3pp vs. 10pp). Impact on Household COR 9pp vs 33pp
- Excellent performance mainly benefitting from better performance in
 Household and Motor Motor improved compared to pre-Covid levels

Accident & Health

Belgium Operating margins

ageas.

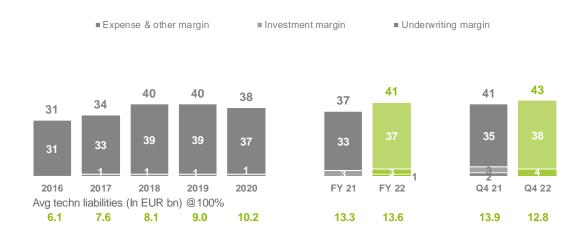

Guaranteed within target range - Unit-Linked exceeding target range

Life Guaranteed

- FY 22 Operating margin within target range
- LY margin included a higher investment result and a higher level of allocated cap gains

Life Unit-Linked

 FY 22 Operating margin higher than LY driven by improved net underwriting margin

Belgium Assets & Liabilities Strong new money yield

Europe Headlines

ageas.

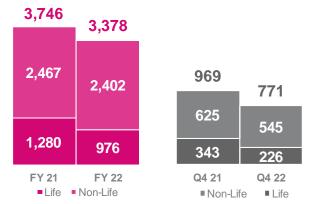

Result impacted by weather and (hyper)inflation

Net result: Strong Life performance – Non-Life down on weather and (hyper)inflation In EUR mio

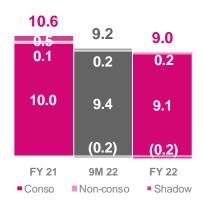

Inflows*: Down in a competitive UK Non-Life landscape and UL products in Portugal In EUR mio, @Ageas' share

Life Technical Liabilities: down on market movements

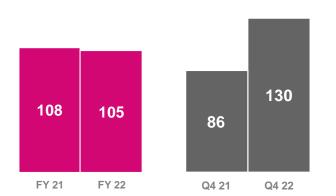

In EUR bn, @Ageas' share

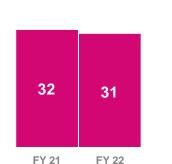

Non-Life Combined Ratio:** Impacted by weather in the UK and Portugal In % NEP

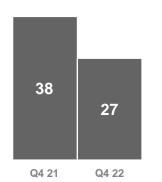

Operating Margin Unit-Linked: within target range In bps avg technical liabilities

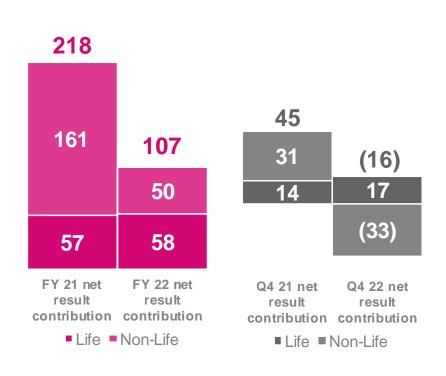

Europe Net result

Strong Life result - Non-Life affected by hyperinflation, claims inflation & weather

Net Result

In EUR mio

• Life:

- Solid FY result, driven by higher financial income and capital gains in Portugal
- FY impact from hyperinflation on AgeSa (EUR -15 mio)

Non-Life:

- Impacted by claims inflation, February storms (EUR -15 mio) and December freeze in the UK (EUR -23 mio)
- FY impact from hyperinflation on Aksigorta (EUR -12 mio) and increase in minimum wages (EUR -10 mio)
- EUR 45 mio capital gain on the sale of commercial lines front book

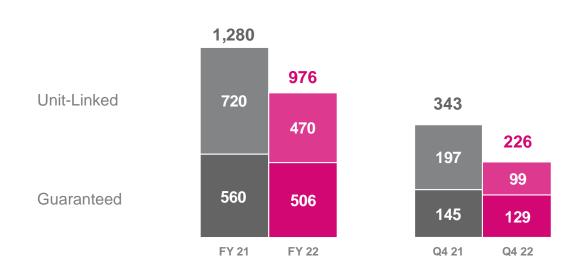

Europe Inflows

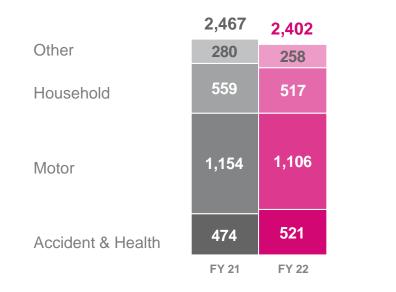

Inflows impacted by lower volumes in the UK and higher interest rates in Portugal

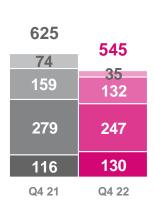

Life

- Inflows down on Unit-Linked products in Portugal in an environment of increasing interest rates and volatility of equity markets - Additional revenues from off-balance sheet pension products at EUR 75 mio
- AgeSa strong increase despite drop in FX

Non-Life

- Impacted by lower volumes in the UK
- Up in Türkiye despite drop in the FX
- Up 9% in Portugal driven by Healthcare and Motor

Europe Combined ratio

ageas.

Combined ratio impacted by claims inflation and weather events

- Combined ratio up on rising inflation in the UK, as well as weather events in UK and Portugal
- Impact adverse weather on Non-Life COR of 5pp 15pp in Q4
- Impact on Household of 22pp 63pp in Q4

Accident & Health

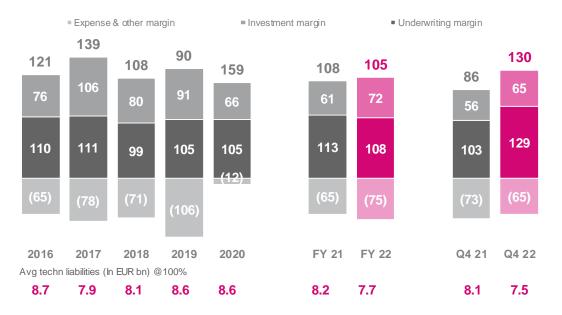

Europe Operating margins Solid operating margins

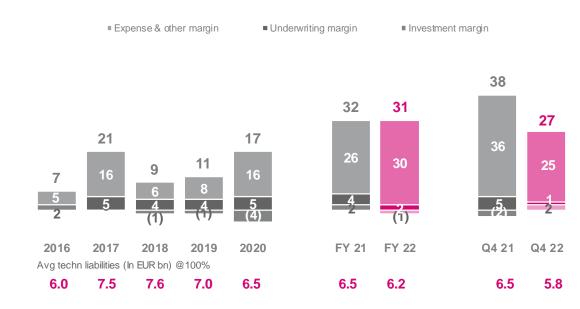

Life Guaranteed

- YTD solid investment margin driven by higher investment income
- YTD underwriting margin down impacted by non-renewal of a large contract in Portugal

Life Unit-Linked

• Slightly down, impacted by lower profitability in France

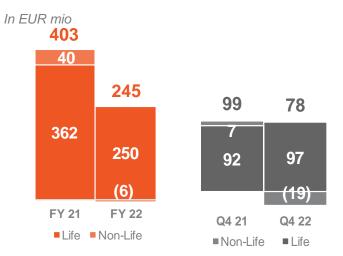

Asia Headlines

Excellent operating performance – negative impact from adverse financial markets

Net Result: down on net capital losses & discount rate – underlying strongly up

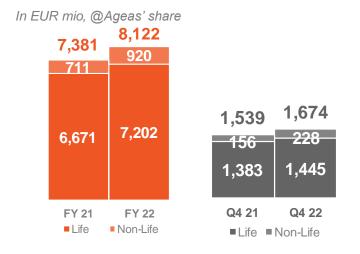

Non-Life Combined Ratio: impacted by Nat Cat in reinsurance

In % NEP

Inflows*: growth in both Life & Non-Life, supported by a strong Q4

Regular premium: remained high at above 80% of Life inflows

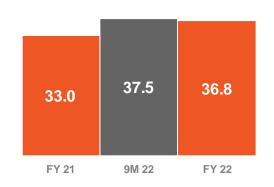

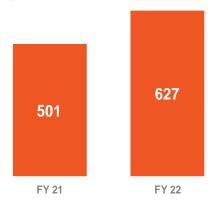

Life Technical Liabilities: up 13% over the year on new business and persistency

In EUR bn, @Ageas' share

Underlying net result:** excellent operating performance

In EUR mio

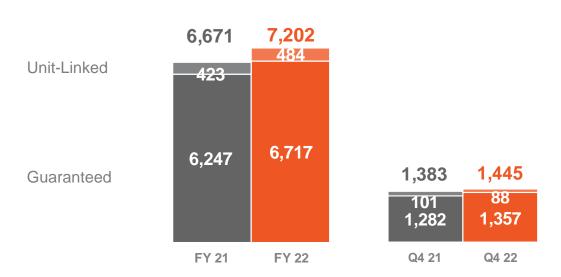

^{*}Incl. non-consolidated partnerships @ ageas' share / All growth rates are at constant FX
**IFRS net result exc. discount rate impact and capital gains & related changes in profit sharing.

Asia Inflows

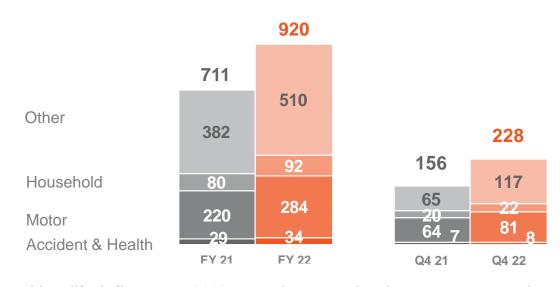

Continued growth in Life and Non-life, driven by strong new business

Life

- Life inflows slightly up (+1%) over the year, with a solid Q4 (+5%) driven by China
 - New business up 11% in 2022 when excluding Taiping Re impacted by strategic change of product mix
 - Renewal premiums in line with last year as high-level persistency compensated for continued impact from paid-up policies in Thailand

Non-Life

 Non-life inflows up 20% over the year thanks to a strong sales momentum across countries

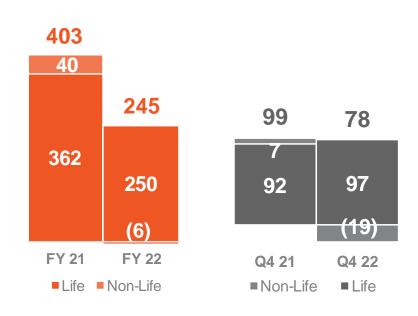

Excellent operating performance – negative impact from adverse financial markets

Net Result

In EUR mio

• Life:

- Excellent operating performance further supported by positive FX, favourable claims experience & expenses management
- Negative net capital gains (EUR -192 mio in FY 22 vs +69 mio in FY21), largely due to equity market decline in China
- Continued adverse evolution of the discount rate in China

Non-life:

- Goodwill impairment (EUR -29 mio) of Indian Nonlife JV in a challenging personal motor market
- Negative net capital gains (EUR -4 mio in FY 22 vs EUR +8 mio in FY 21)
- Combined ratio impacted by Nat Cat in reinsurance

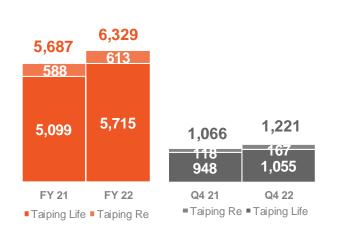

Asia Inflows per country

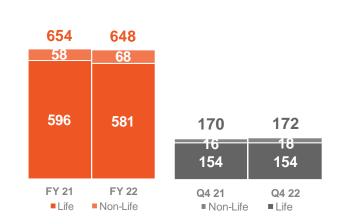

ageas.

Inflows growth across region, driven by new business in Life & strong sales in Non-Life

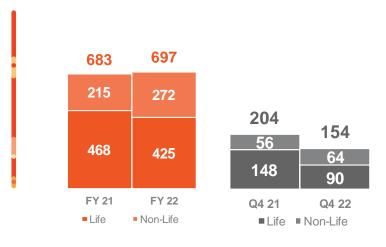

China: TPL 4% over FY 22, supported by a strong Q4 (+14%)

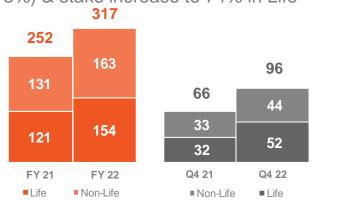

Thailand: down 3% due to paid-up policies in Life

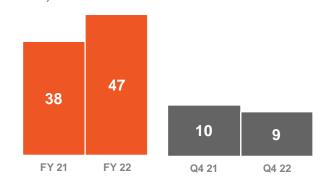

Malaysia: Life inflows down on product mix change in Singapore – strong Non-Life growth

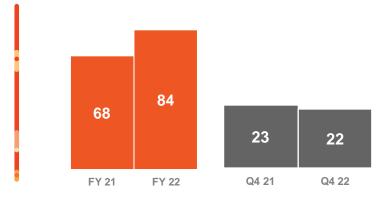

India: strongly up on solid growth in Non-Life (+18%) & stake increase to 74% in Life

Philippines: continued upward trend (+22%)

Vietnam: Solid growth (+12%)

Net result contribution impacted by Motor claims inflation and adverse weather

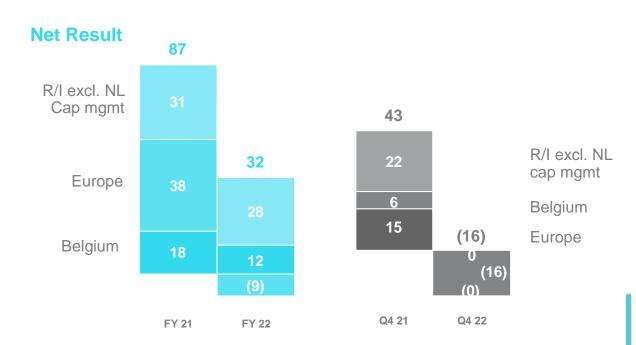

ageas SA/NV reinsurance activities

- Internal reinsurance programme within ageas SA/NV in order to enhance capital fungibility
- Non-Life Quota Share (QS) Treaties: 40% with AG Insurance in Belgium*, 40% with Ageas Insurance Limited in the UK and 40% with all Portuguese Non-Life Entities
- Loss Portfolio Transfers (LPT): 40% with Ageas Insurance Limited in the UK and 40% with the Portuguese Non-Life Entities
- Life protection programme with Portugal (excess of loss treaty)
- Non-Life protection programme: participation to the protection programme of our operating entities

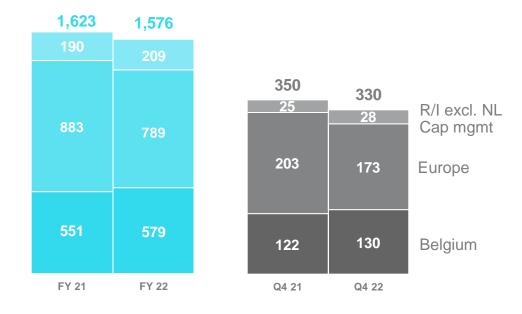

Reinsurance Net result

Net result contribution impacted by Motor CY claims inflation and adverse weather

- FY 22 Net result mainly impacted by inflationary pressure on Motor CY claims and adverse weather (February storms & December Freeze event) in the UK (Europe)
- Q4 21 R/I excl. NL cap mgmt exceptionally high driven by favourable reserve adjustments in protection

Inflows

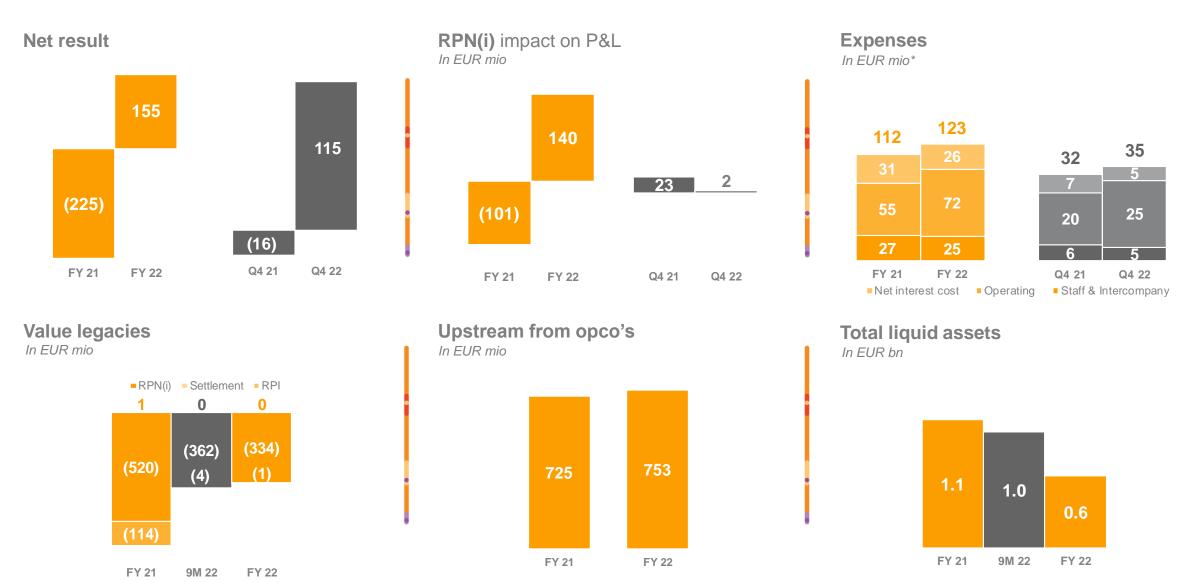

- EUR 1,368 mio from quota share agreements in FY 22
- Last year, inflows in Portugal (Europe) included a positive one-off of EUR 67 mio related to the reversal of reclassification of a premium portfolio exit for the QS

General account Headlines

Result driven by RPN(i) revaluation and FRESH liability management action

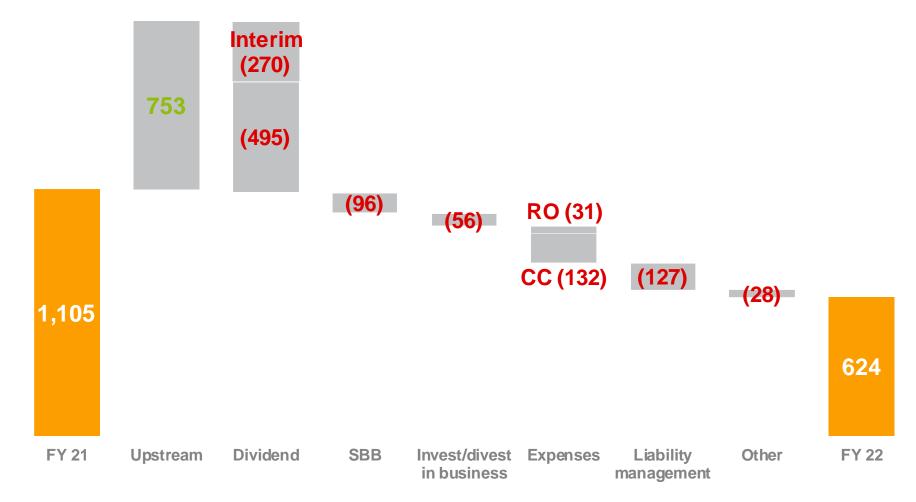

General account Cash position

Cash down on return to shareholders and debtholders

- Invest in business mainly includes the sale of the commercial lines in the UK & the step-up in India
- Liability management related to FRESH transaction and partial settlement of RPN(i)

Impact24 Non-financial & Sustainability targets

Definitions

- Competitive NPS (cNPS) measures the ranking of the Customer's Net Promotor Score against main insurance competitors in the local market. Of the consolidated entities, the Ageas cNPS top quartile target was realised in the UK while other entities reached on or above median scores.
- Percentage of GWP from products that stimulate the transition to a more sustainable world: Belgium benefits from several funds in Life holding the "Towards Sustainability" label. Portugal benefits from a Health offering which includes many preventive and inclusive services encouraging customers to take care of their Health and investing in prevention. UK successfully stimulates customers to opt for green parts in case of motor damage.
- Glass Ceiling Index (GCI) measures the relative presence of women in senior management positions compared to the number of women in the company. GCI is measured as the % of women in senior management positions (Hay Band 20+) divided by the % of women in the company.
- The Gender Diversity Index (GDI) is an aggregate indicator that reflects the share of women in all leadership positions, accounting only for the absolute number of women and men, the share of women on boards, in executive functions, and in board committees.
- Employee Net Promoter Score (or eNPS) is a metric used to measure employee engagement and loyalty towards Ageas. It is measured through asking employees "Would you recommend Ageas as an employer" in the framework of a wider engagement survey.
- Total amount of investments making a positive contribution to transition towards a more sustainable world amounted to EUR 10.3 billion, meaning that the Group already achieved the initial ambition set for 2024 two years ahead of target. In line with the allocation of the funds under management, Belgium contributed the bulk of the total amount, while Portugal increased its contribution by over 50% compared to 2021.
- Level of ESG-integration of investment decisions measures relevant ESG data considered in all new investment decisions to identify opportunities and mitigate risks, and an ESG integration approach based on internal ESG analysis and/or external ESG score is implemented.
- Carbon emissions of the operations (scope 1 & 2): Scope 1 covers direct emissions from owned or controlled sources. Scope 2 covers indirect emissions from the generation of purchased electricity, steam, heating and cooling consumed by the reporting company.
